

## Deep Clean Procedure

1. Sanitize your hands & put gloves on.
2. Remove all contents of fridge & set aside on clean surface.  
(Clean each component of structure in parts – Fridge, Freezer, & Pantry.)
3. Fill container with water & add splash of soap provided.
4. Using cleaning rags provided, deep clean the all surfaces of fridge, pantry, and freezer (as you can).
5. Discard any damaged, expired, garbage or inedible food.
6. Restock fridge, freezer, and pantry maintaining organization.
7. Empty water in Cathedral sink, rinse container/rag, hang rag over side of container and be sure to leave cleaning supplies in cleaning closet in an organized fashion.
8. Log deep clean in book, tidy the area, and have a wonderful day!

**Be sure to clean crevices, under sides, corners, high touch surfaces, and inside/outside of all equipment.**

**If you notice we are low on cleaning supplies, please notify Community Fridge Team in Sanitization Team Channel in Slack.**

**Keep in mind we must lead by example and it is important to leave the Fridge space organized.**
