

## Sanitization Procedure

1. Sanitize your hands & put gloves on.
2. Remove all contents of fridge & set aside on clean surface.
3. Spray all surfaces with provided sanitizer solution & wipe down using paper towel provided.
4. Discard any damaged, expired, garbage or inedible food.
5. Repeat procedure in Freezer & Pantry.
6. Log sanitization in book, tidy the area, and have a wonderful day!

**Be sure to clean crevices, under sides, corners, high touch surfaces, and inside/outside of all equipment.**

**If you notice we are low on cleaning supplies, please notify Community Fridge Team in Sanitization Team Channel in Slack.**

**Keep in mind we must lead by example and it is important to leave the Fridge space organized.**

**How to replenish sanitizer: – Wear gloves when handling Bleach  
1 tsp Bleach – 1 L of COLD Water in Spray Bottle**
